

May Meeting:

At the meeting, we considered what local plants and birds can tell us about the history of the village. Laura gave us an excellent presentation on local birds, those that have declined and those on the increase and a copy of this is on our website. Dave then followed this with photos of plants which can be found in this area and what this can indicate about past land use.

We also looked at some more photos of Whit Walks from the 1940's and 50's; of a family in Greenways - a house on Ainsworth Hall Road; and of a photo of Narrow Lane, leading from the Bowling Green to the back of Meadow Cottage.
